JAS La Rochelle – Health & Food Days – 15 & 16 June 2018

Why to become an Exhibitor during the Health & Food Days 2018 ?

Let's be a real player during this event by becoming an exhibitor among companies from technology, ingredients and services industries.

By booking a stand, you will give a unique visibility to your company and market easily your products and projects.

- You will benefit from a special and customized area to set up your business meetings and meet other professionals.
- You will be part of a real dynamic joining more than 150 exhibitors.

Exclusive offer only for business organisations

Service Providers, Equipment Suppliers and Ingredient Suppliers

A 6m² or 12m² full equipped stand

Within the Exhibitors Centre

For more freedom in presenting your company, you can now choose between a **6 m² or 12m²** stand.

Are you looking for a larger communication to launch a new ingredient? A new communication strategy? More space for bigger equipments? **The 12m² stand is what you need.**

Your 6m² or 12m² stand will be located within the area dedicated to technology, ingredients, packaging and service providers, **right in the heart of the event where more than 3000 meetings are held.** (Cf. map on page 3).

Especially designed to improve the visibility of your business, this area will offer you the possibility to hold all **your meetings in the same place during the two days.**

Your equipped stand includes partition walls, power outlets, 3 spotlights, 1 table and 3 chairs, as well as your company's logo.

Health & Food Days 2018 Communication Pack:

Let's be visible during the event – a customized slides continuously showed during 2 days and a dedicated page on our new website.

- A **SLIDESHOW** presenting your company
- Your **COMMUNICATION** on our **WEBSITE**

« Exhibitor 2018 » Cost: 6m² = €750 or 12m² = €1400

*** This cost does not include registration fees to business meetings.**

Health & Food Days 2016 Communication Pack :

The perfect way to communicate with agro-food professionals

Only for INGREDIENT SUPPLIERS, EQUIPMENT SUPPLIERS and SERVICE PROVIDERS

Especially designed to increase even more your visibility during Health & Food Days, this pack includes:

Your company logo and business showed on slides during the event

You will be given the chance to present and share your expertise (business, products, innovations, services...) through slides showed on screens located in strategic spots of the event. The slides, continuously showed during the 2 days, are created from a 5-pages PowerPoint file with Exhibitor's information.

This slideshow will be also integrated to your Exhibitor page on our website.

Your company expertise showcased via a dedicated page on our website

Exhibition center
 Innovative ingredients, new technologies, broad-ranging expertise and innovative packaging are this year's issues

The JASstand is a unique custom-made meeting place. The Exhibition Centre is not an "exhibition" like the others. All exhibitors take part in the event by holding their scheduled meetings on their own stand. The exhibitor stand is the perfect way to boost spontaneous meetings with all professionals attending the event.

The Exhibition Centre is divided in 3 big areas and gathered around 150 exhibitors in 2014.

Expertise Centres National Players
 Approved centres, national or international networks, clusters, collective structures – this area is dedicated to you. Aware of the importance of such organisations for businesses and for the industry in general, the JAS put the spotlight on industry expertise and specialities inside this area.
 Every national and/or international expertise centre will take part in our event. You can select them so they can show you the tools and services they offer to businesses in order to innovate in the Health & Food field.

Expertise Centres Regional Players
 Our event presents the Health & Food expertise from the Aquitaine-Limousin-Poitou-Charentes Region within a dedicated area.
 Regional experts of all types (laboratories, specific training, active health & food players, will be here to prove that the regional know-how is up to the national expertise.

Ingredient Suppliers, Equipment Suppliers and Service Providers
Ingredient :
 Start point of the food product composition, ingredients – either active, excipients, enhancers, substitutes – contribute to the nutritional balance of a recipe.
Equipment and packaging :
 Just like new technologies and food processes, packaging is more than a simple protection – it is part of innovation.
Service Providers :
 Service Providers with a wide expertise are here to supplement the businesses' in-house skills. By taking part in their development, they provide them with complementary expertise essential to carry out a project.

Equipment and packaging: Glatt
 Ingredients: Prodim
 Service providers: Cartonéo, Greem

The Health & Food Days organisation gives you the opportunity to highlight your company expertise via our website by inserting a dedicated page with you company logo. If you want, your logo can redirect to a specific website.

This page will be available to all website visitors from middle-March, offering your business even more visibility.
